## Testimonial

To whom it may concern:

Ridha Mejri has been working as a trainer and consultant with Global Cultures to facilitate intercultural training programmes for various corporate clients since 2017.

Mr. Mejri disposes of extensive international life and professional experiences and a broad intercultural expertise. He often works with international groups of participants and has region-specific expertise on Arab-Islamic cultures as well as on individual target countries in North Africa and the Middle East, France and Germany.

For Global Cultures, Mr. Mejri has already conducted individual and group trainings regarding the Arab World: Kingdom of Saudi Arabia, Qatar and Tunisia. The trained target groups include senior executives, project managers and expatriates. Mr. Mejri has conducted various trainings for corporate clients from the market research, financial sector, packaging machines, production plants, turnkey solutions as well as the automotive industry.

Since Mr. Mejri can work in several languages. For us he has used German and English in his trainings.

Mr. Mejri has always received great feedback from participants, has always been flexible to accommodate the clients' needs and has been very understanding of their concerns and able to provide suggestions and solutions.

We value Mr. Mejri very much as a friendly, open, reliable, team and client-oriented colleague. He has often demonstrated flexibility and creativity in his collaboration. Training and workshop participants appreciate his sense of humor and empathy. We experience him as a trusted and authentic consultant and trainer who finds it easy to build and maintain a trusting relationship with individuals and groups. We highly recommend him as an intercultural consultant.

We thank Mr. Mejri for the very pleasant and constructive collaboration and look forward to further joint projects.

Best Regards

Ekaterina Beekes
