Getting the most out of your course online -
feature, function, new tools for teaching and
learning online

held on 12th November 2020

Trainer: Roy Bennett

Duration: 60 minutes

Language: British English

Summary:

Online teaching has become part of our daily routine in recent months. And, while many teachers are getting to grips with the technical challenges of online teaching, it is not always easy to keep students motivated outside the physical space of the classroom. The Pearson English Portal offers a perfect solution to this problem. It offers a wealth of tools and resources that can help make our online lessons an engaging and productive experience for students and teachers alike. In this session, we will take a closer look at the various resources on offer and, perhaps more importantly, how they can be used creatively to create motivating and effective lessons for our learners.
